Quindío, Colombia

Professional with experience in software development and Unity development. My profile highlights versatility, problem-solving, and attention to detail. I have knowledge in web development and languages such as Java, C#, JavaScript, PL/SQL, and Python. Currently, I am strengthening my skills through a Unity development boot camp, consolidating my technical and soft skills. My objective is to grow in a challenging and dynamic environment, leveraging my technical abilities for roles in software development or Quality Control (QA).
